04.09.2024

To
The President & Secretary,
National Medical Association

Respected Sir,

Warm greetings from the Commonwealth Medical Association. Following up on our previous email, I kindly request your attendance at our Commonwealth Medical Association Biennial Conference, scheduled to take place in Chennai, Tamil Nadu, India, from November 8th to 10th, 2024. We will have a general assembly of the Commonwealth Medical Association on 8th at 4 pm, in which each National Medical Association can participate to guide and enable us to chart out our plan for the next biennium.

During this time, the elections for the officers, the secretary, the treasurer, and regional vice presidents will take place. All Commonwealth member countries, having paid the annual fee ranging from 200 GBP to 600 GBP based on GDP criteria, will have the opportunity to nominate their representatives for these posts and participate in the election on the same day.

During the meeting, we will have side events.

1. The UN assembly's Stop TB initiative review meeting by the STOP TB Partnership Project.
2. The International Family Medicine Congress, hosted by the Indian Medical Association College of General Practitioners wing
3. A session on artificial intelligence in healthcare, hosted by the Commonwealth Digital Health Mission,
4. A session on the Antimicrobial Resistance Initiative of CMA and IMA.
5. CMA, Young Doctors Forum Meet.

All of the aforementioned programs are open to the delegates' participation.

The 9th evening will be the grand installation ceremony of the new President of CMA in Hotel Green Park, in which dignitaries of the medical profession will participate.

CMA has initiated Individual Associate memberships for the distinguished members. The prestigious awards of Fellow of the Commonwealth Medical Association (FCMA) and Member of the Commonwealth Medical Association (MCMA), bestowed during a ceremonial convocation on the 10th at 2 pm, present a unique opportunity. Spread this convocation message to your members to empower them to get Commonwealth accreditation. The application forms are enclosed herewith.

Apart from the NMA, the fellows and members will be eligible to get subsidized educational courses offered by CMA through Medisys and Spartan Health University ([visit: www.commonwealthmedicalassociation.org](http://www.commonwealthmedicalassociation.org)), and they can also apply for Commonwealth University grants.

This CMA Conference's theme will be "Resilient healthcare through family medicine culture."

I eagerly anticipate your reply and the nomination of your NMA representative for the CMA Executive position.

The CMA will arrange local hospitality for each nominated member of the National Medical Association for a period of three days. Additionally, all nominated members of the NMA will receive free registration for all the side events. If you require a visa invitation letter, please contact me.

Thanking You

Regards

Dr. Muruga Raj Rajathurai
President, CMA

Prof. Dr. J.A. Jayalal
Secretary, CMA
